**Subject:** Please Add Federal Superfund Info from TX & Wells for TCEQ/EPA Update Today  
**Date:** Wednesday, September 6, 2017 4:00:03 PM  
**Attachments:** [Systems Wide Update Press statement 9-6-17.docx](#)

---

David and Sam, can you please update this accordingly (in tracked changes) and then send it back to me and Ryan so that we can finalize this and get it out asap? I don't have the updated information on federal superfunds or Wells, so if you have that, it would be great. Thanks – Liz

All attached is the draft statement that will be going out today. Sorry for the delay, I was pulled this morning and most of the afternoon to be downtown for meetings in the Governor's Office. We are waiting to see if there is an update from our Dam Safety Program on their numbers. Other than that, all of these numbers are accurate from yesterday's data pull.

I have highlighted an area for EPA to insert Federal Superfunds update if you would like.

Also Highlighted and a have a comment on the review pane about private wells. It is my understanding that EPA will be handling private well information. Let me know if you would like to change this language.

Let me know if there are any concerns.

Thanks,

Ryan Vise
